

PRESSURE WASHERS

EDC's PW4013C features Honda's powerful GX390 commercial engine. This unit is capable of 4 gallons of water per minute at 4000 psi. The heavy duty chrome frame is supported by pneumatic tires which minimize vibration and enhance portability. All the following features are included as standard equipment with this pressure washer:

- Quick connect couplings
- Low pressure chemical injector
- 50' hose
- Trigger gun/extension
- Removeable pressure tips

PW4013C

EDC is proud to add the PW25255 and PW27256 to our line of cold water pressure washers. These lighter weight models still pack a punch. Each also features a coated frame and pneumatic tires which minimize vibration and enhance portability. In addition, they offer the following quality features:

- Comet pump
- 2.5 GPM
- 2500 PSI (25255); 2700 PSI (27256)
- 25' hose
- Heavy duty trigger gun
- 4 nozzles
- Thermo valve
- Quick connect couplings
- Chemical injector
- GC160 (25255); GC190 (27256)

PW25255

MODEL	PSI	GPM	HOSE	HONDA ENGINE	SRP (US\$)
PW4013	4000	4.0	50 ft	GX390	\$1,835.00
PW27256	2700	2.5	25 ft	GC190	\$665.00
PW25255	2500	2.5	25 ft	GC160	\$619.00
